

Referral Letter from SPCB / Competent Authority for Existing Industry Project

As per revised guidelines of CGWA, existing industry projects who have not obtained NOC for ground water usage for their existing and proposed expansion projects are allowed to apply online for NOC. To check the eligibility of such existing Industry Projects to get NOC for ground water usage, following two documents are mandatory.

- i. Document indicating Consent to Establish / Operate (Date from which industry is in operation) and requirement of ground water quantity for the industrial project. In case of expansion of existing project, document indicating revised consent letter / consent for expansion and additional ground water requirement, if any.**
- ii. Certificate in respect of industrial effluent, if any, that the industrial effluent of the industry project is non-polluting and confirms to general standards for discharge of environmental pollutants approved by the SPCB / MoEF / competent authority .**

1. Attachment of these two documents, to be obtained from concerned SPCB / competent authority, is mandatory for existing industry projects seeking NOC for groundwater withdrawal and has industrial effluent on account of its industrial process.
2. Online application submitted without above mandatory documents would not be processed and rejected.
